

User/Admin

Overview

This Application is a collaborative version control and project management platform designed specifically for team-based data storage and project coordination. This self-hosted solution provides a streamlined interface for managing code repositories, tracking versions, and facilitating team collaboration.

NOTE : Only Admin can create Projects, Add new language, Upload files, delete Files and edit/submit Project details

Backend - <https://dev.gitea.vachanengine.org>

WorkFlow

1. Authentication

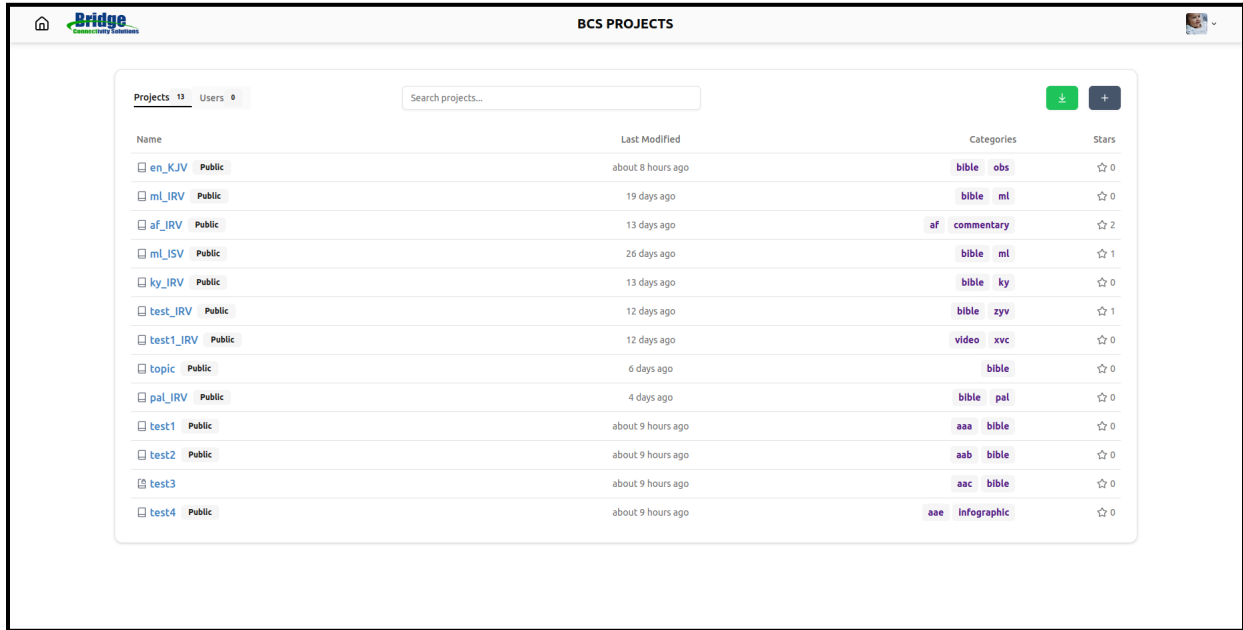

- Signing up for a new account using gitea backend

- Logging in to the Gitea UI

The image shows the Gitea UI "Register Account" form. At the top, there are three tabs: "Sign In", "Register Account" (which is selected and underlined), and "OpenID". Below the tabs, the word "Register" is centered in a light gray bar. The form contains four input fields, each with a red asterisk indicating a required field: "Username", "Email Address", "Password", and "Confirm Password". Below the "Confirm Password" field is a blue button labeled "Register Account". At the bottom, there is a link that says "Already have an account? Sign in now!" in a light blue font.

2. Home Page

- Header components: Home icon, Company Logo, App Heading, Dropdown for My Profile and Logout
- Tabs: Projects and Users

The screenshot shows the 'BCS PROJECTS' interface. At the top, there's a header with the 'Bridge' logo and a user profile icon. Below the header, there's a navigation bar with 'Projects 13' and 'Users 0'. A search bar labeled 'Search projects...' is present. The main content area displays a table of projects. Each project row includes a project name with a 'Public' tag, the last modified date, categories, and a star rating. The categories are color-coded: purple for 'bible', green for 'commentary', blue for 'video', and orange for 'infographic'.

Name	Last Modified	Categories	Stars
en_KJV Public	about 8 hours ago	bible obs	☆ 0
ml_IRV Public	19 days ago	bible ml	☆ 0
af_IRV Public	13 days ago	af commentary	☆ 2

4. Users Tab

- Viewing the list of users
- Searching for users
- Accessing user profile information by clicking on a username

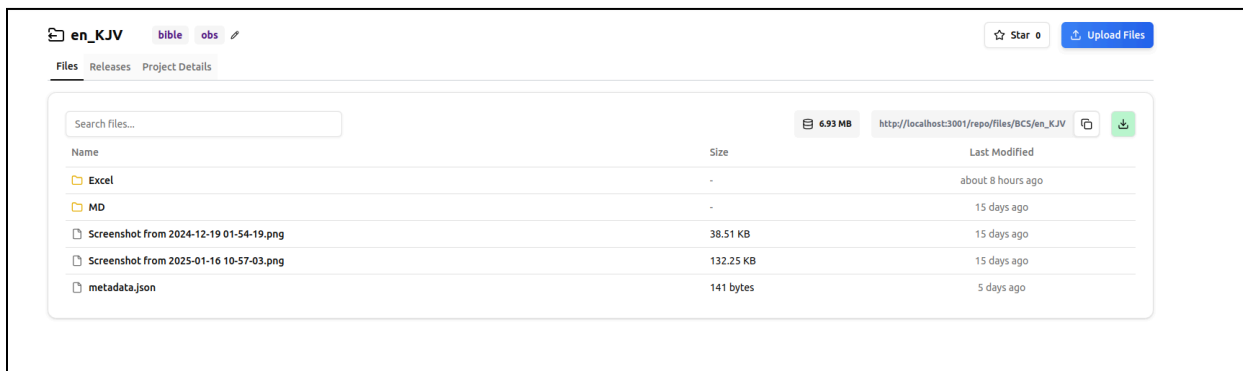

5. File Explorer

- Project name and categories
- Editing categories
- Starring the project
- Uploading files or folders to the project (for allowed users to project)
- Tabs - Files, Releases and Project Details

6. Files

- Searching for files
- Viewing file details (name, size, last modified)
 - Name
 - Size
 - Last modified
- Project Size
- Copy project URL
- Download Project in Zip format

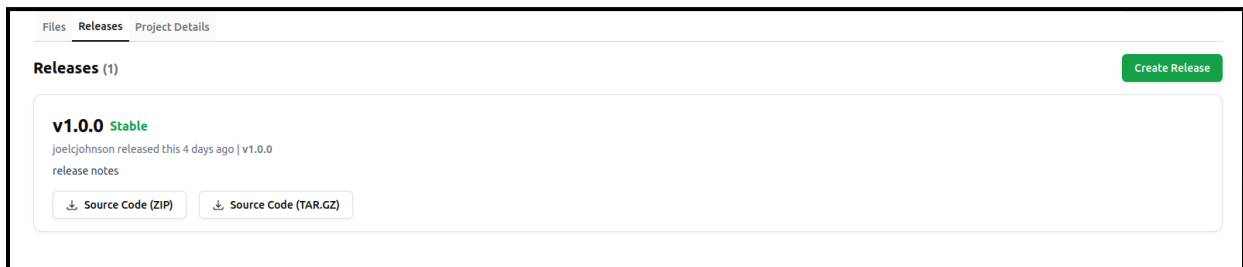

6.1 Previewing files

- Text
- Image

- Excel
- Markdown,
- CSV,
- Audio
- PDF
- Copying, downloading, and deleting files depends on file format. (only admin can delete)

7. Releases

- Viewing and downloading releases (ZIP and TAR formats)
- Creating new releases (only admin can do releases)

8. Project Details

- View the form details
- Filling out the project information form (only admin)
- Submitting the form to create a metadata.json file (only admin)
